

## RTG Quality, Health & Safety, Environmental, Energy and Information Security Integrated Management System (IMS) Policy Statement

Quality, Health & Safety, Environmental, Energy, Information Security Integrated Management System's (IMS) compliance is a primary management responsibility of RWE & Turcas Güney Elektrik Üretim A.Ş. (RTG) and its key to our business success. IMS has the active commitment of all management, employees and contractors.

RTG's Integrated Management System (IMS) covers all our functions and processes and is based on the principles of:

- Understanding internal & external factors and the needs and expectation of clients/interested parties,
- Strong Leadership of the Top Management,
- Control of risks and addressing opportunities,
- Engagement of our highly qualified and skilled personnel,
- Appropriate resource allocation,
- Evidence-based decision making,
- Relationship management with our suppliers and subcontractors,
- Health and Safety Culture, Quality and Environmental Protection consciousness, Energy efficient approach and Information Security provision.

In order to achieve these, RTG has established, implemented, maintained and continuously improved an Integrated Management System (IMS) that complies with the requirements of ISO 9001, ISO 14001, ISO 45001, ISO 50001 and ISO 27001 as well as other specific standards related to our industry.

As an energy intense manufacturer of electricity, RTG strives to reduce its energy consumption and costs and promote the long term environmental and economic sustainability of its operations. We are committed to:

- Comply with applicable statutory and legal requirements in relation to quality, health & safety, environmental, information security, energy use, consumption and efficiency and satisfy other applicable requirements,
- Zero Harm to the health and wellbeing of our Employees, Customers, Business Partners, the Environment and society at large.
- Protect the environment, natural resources and prevent the environmental pollution,
- Prevent injury and ill health,
- Deploy information and resources to set, review and achieve our IMS objectives and targets.
- Consider energy performance improvements in design and modification of our facilities, equipment, systems and processes.
- Effectively Procure and utilize energy efficient products and services.
- Improve our Integrated Management System performance continually.
- Provide consultation and participation of workers and, where they exist, workers' representatives.

These commitments are demonstrated by proactively preventing health, safety and environmental related injuries and ill health; and reducing, if not totally eliminating hazards and risks, and environmental aspects and impacts to as low as reasonably practicable in all our business operations.

This Policy is available, understood and maintained at all levels of RTG and communicated to all relevant interested parties. It shall be reviewed periodically for its sustaining convenience and effectiveness.

The Top Management of RTG is committed to comply the requirements of the IMS and its continual improvement.
