RWE&Turcas Denizli Plant Receives Environmental Award

The Denizli power plant of RWE & Turcas Güney Elektrik Üretim A.Ş. received an award in the 2nd Green Facility Awards given by the Turkish Healthy Cities Association.

The Denizli power plant won RWE & Turcas Güney Elektrik Üretim A.Ş. a Green Facility Award given by the Turkish Healthy Cities Association. The Awards are given to promote healthy manufacturing facilities and organized industrial zones nationwide. **Plant Director Metin Göcen** received the prize from Minister of Health Mehmet Müezzinoğlu on behalf of RWE & Turcas, and said, *"Starting with the construction of our plant, we have never made any compromises when it came to respect for the environment. Coming in the wake of the top score and award we won in the natural gas section of the thermal power plants category in the ICCI 2014 - International Energy and Environment Fair and Conference, this is a meaningful award. We will continue to support security of energy supply and production of environmentally friendly energy in Turkey, offering innovative solutions to their customers while contributing to the sector."*

The Green Facility Awards were established by the Turkish Healthy Cities Association, a nongovernmental organization promoting healthy urban environments, in 2013 to encourage companies with an exemplary track record. 48 facilities and 9 industrial zones received honors in the second Awards program. The ceremony at the Istanbul Hilton was attended by Minister of Health Mehmet Müezzinoğlu, Mayor of Istanbul Kadir Topbaş, Turkish Healthy Cities Association President and Mayor of Bursa Recep Altepe, representatives from member municipalities, presidents of industrial zones, business delegates and members of press.
